

RECYCLING

1. Why does this sign refer to recycling?

2. What do you most recycle at home?

3. Sit in pairs. Look at the chart below. Write down all the objects you can think of that fit each category.

PLASTIC	PAPER	METAL	GLASS	OTHER

4. Sit in groups. Discuss how you recycle each of these objects at home.

5. Each group should choose one object from a category and recycle it at home. Share your ideas with the whole class next class. The most creative idea will win a prize!

Object chosen:

6. As a class project, choose an object that can be recycled at school. Share your idea with the whole school and begin a campaign to be carried out throughout the school year.

Title of the campaign:
